

# School Party Fundraiser

**How it works?** – The school will put on an event set for a certain date. The students will sell punch cards to this event. Bouncin Bins has set up milestone packages with a number of inflatable units that will be given to the event once each milestone (page 2) has been met. Students sell punch cards in order to meet this milestone.

**What will it cost the school?** - That's the best part. **Absolutely nothing!!!** The school raises funds by having a party! Students will sell punch cards to an event and the school will receive a percentage of the punch card sales for this event.

**What does the school get?** – In addition to putting on a great 3 hour event the school will receive **30% of the punch card sales** for the event. On the following page is a breakdown of milestones and profits for the school. Punch cards will also be sold at the door.

**What do the students get?** - The top punch card seller will receive a **free 4 hour bounce house rental** for an event to be redeemed within a year. All students will receive a prize from the Prize Climber Chart if they sell six or more punch cards. See the Prize Climber Chart below for prize and sales number details.

**What does Bouncin Bins provide?** - We provide everything you need for a successful fundraiser. This includes 1) Attendants for your event, 2) Custom printed punch cards, 3) 250 Promotional Flyers 4) Prizes for student punch card sales based on the 'Prize Climber Chart' 4) Inflatable equipment for your party 5) Turn-key packet on how to have a successful fundraising promotion using inflatables.

*The reward for this type of fundraiser is much more exciting for students than the typical magazine or cookie sale.*

\* Dunk your principal for added fun!

(ask about exchanging items for a dunk tank)

# Details

1. In order to for us to deliver the equipment for the event the school must show that they have sold a **minimum of 300 punch cards** at \$5 each or \$1500.
2. If the first event milestone has not been reached prior to the day of the event the school will still receive 30% of the gross for the punch card sales they have made.
3. Bouncin Bins will provide attendants for all the rides and concessions **taking much of the stress off of the school.**
4. Bouncin Bins will keep track of the number of punch cards sent to the school. When the event is completed the school must return any unsold punch cards and the total amount of money raised from the punch card sales. At this point Bouncin Bins will check the punch card numbers against the sales figures and cut the school a check for 30% of the total.
5. Taxes: We follow the tax laws required by your state. If your organization has the proper tax exemption documents required by your state, you are exempt from paying tax. (It is essential that documentation be on file to verify this fact). If you do not have a tax exemption number or your group is not tax exempt, you will be charged tax.
6. **All of our packages include liability insurance.** Usually an extra cost this insurance covers \$50,000 per person, \$1,000,000 per accident and \$2,000,000 aggregate.
7. For 7% of the standard rental fee you can purchase equipment protection. This is a temporary insurance for our equipment while it is in your care. Under our contract and terms you are responsible for any damage that happens to our equipment while the unit is in your possession. The equipment protection covers any damage that may occur during your rental period excluding intentional damage or theft.
8. School faculty will be given packets with punch cards, 250 milestone fliers as well as tracking document papers that will allow the faculty to keep track of how many punch cards a student has taken and sold. Bouncin Bins will also provide a flier template document that the school can use to print out additional fliers.
9. Students will be given a manila envelope with which they can store milestone fliers, punch cards and a tracking paper that will help them keep track of sales.

# Details

10. Events must be on grass, indoors or concrete.
11. When your school decides on a date for the event we will print out fliers and punch cards that are tailored for the event date and school that will be selling them. The school will need to decide which milestone they are attempting so the appropriate amount of punch cards can be printed by Bouncin Bins. If during the fundraising process the school needs additional punch cards we will be happy to print off extra.
12. Event dates must be Monday – Friday.
13. The school must provide granulated white sugar for the cotton candy machine and cubed ice for the snow cone machine.
14. Schools are encouraged to further motivate their students with incentives. (E.Q. Dunk your principal! More punch cards sold, means a bigger party)
15. If schools want to sell punch cards for more at the door they are welcome to. Bouncin Bins will only hold the school responsible for \$5 or \$10 per punch card depending on the card value. (Eq. If the school sells \$5 punch cards at the door for \$7 per punch card, the extra \$2 per punch card goes to the school in addition to the standard 30%.) However, student prizes will not be valid on punch cards sold at the door.
